“From the RHBC Health Ministry”

September is Healthy Aging
Awareness Month

It is an observance annually designed to focus National attention on the Positive Aspects of Growing Old Gracefully. Some Tips for Reinventing oneself to think outside the box include: 1. Being a Positive Thinker, 2. Being Positive in your conversations 3. Surround yourself with energetic, happy, & positive people of all ages, 4. Being a cautious & conscious walker to prevent falls as you moderate a daily exercise routine, 5. Practicing good oral hygiene along with good nutrition,, 6. Staying connected with family & friends, 7. Seeking out new adventures & discovering new passions online 8. Keeping your doctor appointments & recommendations, 9. Consulting & utilizing daily devotionals to stay focused throughout the day & 10. Most of all, Get your Covid-19 vaccine if you have not already. The FDA has granted FULL approval for the Pfizer Covid-19 vaccine for people age 16 & over. In May, emergency authorization was granted to include those 12 years & older. Make this a priority to help protect yourself & others: along with social distancing & frequent hand washing/sanitizing: as we observe September as a Healthy Aging Awareness Month.
