GRIEF  SHARE

GriefShare, a weekly, video-based support and discussion group, designed to encourage hope, help and healing sponsored by Riley Hill Baptist Church will begin its next cycle of sessions virtually using Zoom on Thursdays from 7:00 to 8:30 pm, September 2 to December 2, 2021. The group is open to anyone dealing with the passing of a loved one. We ask that you call or email to register at least the week before the session. Please contact the church at 919-365-5277 or email [griefshare@rileyhillbaptistchurch.org](mailto:griefshare@rileyhillbaptistchurch.org) to register and/or for more information.

“From the RHBC Health Ministry”

December is Disease Prevention/Health  
Promotion Month

It is likely that the Flu viruses & the COVID-19 virus will continue to spread throughout the Fall & Winter seasons. The Pfizer Covid vaccine is now recommended approval for everyone ages 5 years & older & the Booster shot for all adults ages 18 & older. Healthcare systems are already overwhelmed, treating both patients; A reason why also getting the Flu vaccine as well is more important than ever. It will not protect against COVID, but it can reduce the severity of symptoms & incidences of hospitalization & death. The major 7 Flu symptoms include: fever, chills, body aches, cough, sour throat, headache & fatigue. COVID-19 can include these; PLUS loss of taste or smell, diarrhea/vomiting & breathing difficulties. We must continue to commit to health promotion & disease prevention by practicing a healthy lifestyle with daily devotion, getting enough sleep, eating mindfully, exercising regularly & following the CDC precautions in this month of December & Just note: it is not too late to get the flu shot in addition to the Covid vaccine to protect yourself & others.
